SUPERIOR COURSE
IN THEURGY - 7

Spring Equinox March 21, 2023

Lesson 239

By the Ven. Master T. A-O Domingo Días Porta

Question of the previous lesson, 238 - Study of the cosmic ceremony:

FThe universal prayer (of the 33 taus).

— Master, that prayer that you say, the first one, in French, why? Then, one does not understand.

Master. - The Catholic Church before made the masses in Latin, but people did not understand, then, it is now said in the language [...].

"Then, why is that prayer said in French?"

[...] Ah, what happens is that we have in the [...] studies. There are things that are preserved in their original language because [...] the sound, the sound of power. We have already talked about what the word is, a symbol of an idea that one has and transforms it into a word, a feeling that one has and transforms it into a word, a thought of knowledge [...]. People generally do not analyze the sound of the word [...]. They say "happiness"... and no, at that time the goddess of happiness, the power of faith, etc. does not arrive, because the word has lost its sound.

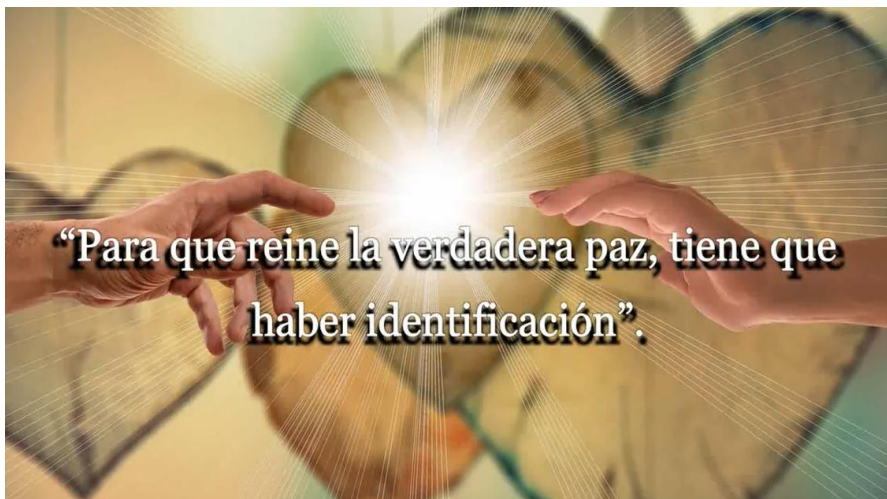

Then, in these sacred studies, we keep certain ancient sounds, such as Latin, Sanskrit, Hebrew. And in our culture of America, then, we also have that tradition, and we keep for example, our greeting in lak'ech ... to Lak'en, in Maya. It comes from the Mayan Initiatic tradition. That Mayan greeting, I asked the Mayan Master Domingo Martínez Paredes, who was a professor of Mayan culture at UNAM, at the Autonomous University of Mexico, I asked for a greeting for Mais, and he gave me

"In lak 'ech, A Lak 'en", without explaining. So, I investigated and then I really understood the depth of that expression: I am you ... You are me. That is the basis of peace. If I offend you, I am offending myself; If I shout at you, I'm screaming at myself; I look to fight you, I'm hurting myself. For true peace to reign, there must be that identification and not build walls, borders. One thing is you and one thing is me, and leave that desire to look for war, to look for arguments.

Well, the Prayer to the Demiurge [of the 33 taus], Demiurge is a word of Greek origin that means "the maker of the worlds", that is, God as a creator. God has many functions: love function, Peace function, function of this ... infinitely. He has no limits, we cannot say: "God is just this ..." No, He has no limits, he has no borders, he is not like you, that put limits, He is open.

Well, the Demiurge can also be translated as Universal Soul, the gift of life that we have, because the creative power of God is within each one of us. God is not only outside, he is inside. They say that God is everywhere, is within each human being and all living beings. There is one ... the essence, which makes us thinking beings, seekers of truth, happiness, etc., that spark of light. It is in us, and it gives matter a living form.

Well, the Prayer begins by saying: Oh! Dèmiurge, écoute Moi: Oh! Demiurge, listen to me. French is not an ancient language, a sacred language, it is a common language, like Spanish. But, in French, which comes from Latin, it turns out that the pronunciation is not Latin, but comes from languages of the Druid Initiates [priests of the ancient Celts]. When people in Europe lived in the forests (like the Amazon here), they had an Order, the Order of the Druids, sages. And the people that followed the Druid Masters were the Celts, who had their language. That language, as it's no longer spoken, is preserved only like Latin, the sacred part. And that sound then, says "Oh! Demiurge". But in French it is pronounced "Oh! Dèmiursh". It is written écoute Moi, but in French it is pronounced "ècut moa". The "e" is not pronounced; écoute, sounds "ou". Oh! Dèmiursh, ècut moa; Moi sounds "moa", not

“moi”. Oh! Demiurge, listen to me ... We create, at the beginning of the ceremony, we create a bridge. "Listen to me, to what I'm going to tell you. I will not be asking for money, bread, health, etc." The Demiurge will answer, "Let's see what you want."

"Eternal Demiurge, Infinite Demiurge ...", that is already known, God is eternal, although people cannot explain what it means eternal [...] they accept. "Unique Demiurge ...", there is no other God, only God. What is called the gods, are the powers of God, we invoke three names of God, which seems to be three gods. How is the first? Vav he vav (והו) [...] which means "God exalted and elevated above all things." This is a very deep key. One must love God above all things, above all beings, and not create a false idol. "No, I love you more than God," they use false idols. That means, for example, [...] God elevated and exalted [...] which corresponds to a psalm, Psalm 3, verse. 4 and has a formula that one must practice.

Well, then, then it says: Force, Justice, Amour; aide moi, “strength, justice, love; aid me.” Every time one—speaking of God's duality— one gets inside, there we can have that connection. “You who are flame, you who are fire, you who are light, protect me.” We are asking for spiritual things. The flame, not of the destructive fire, but the flame of the Creative Fire. As in the kitchen, one creates meals, health with fire. "You who are flame, you who are fire, you who are light ...", in reverse is how it works, right? From light comes fire, and fire produces flames, but from the human point of view, we are going from the effect to the cause. From the flame to the fire, to light, protecting. "You, spiritual and eternal substance ..." Because God in his multiple manifestation, produces a substance, which is the Law, "... spiritual and eternal substance ...", which one can inhale, one can drink. "Perfect Being, ingenerated ..." Ingenerated means that there was no origin; HE is not tied to time. We are beings of time, we are born and die, but HE is not tied to time.

Ingenerated ... Inmutable, HE doesn't change. One day he's cheerful, the other day he's angry. When talking about God's anger, is when He takes action, for us He is angry. He is taking measures because that people lost a ... they are rude, vicious, and sick, they have to have their ears pulled, but HE remains serene, [...] pull their ears ... He is angry, brother! God ... gets angry.

"You are without beginning, without middle, and without end." Space also does not have a starting point, an arrival point. we humans, we are the ones tied to time and space.

"And, eternally engenders himself." He was not engendered, he was not created one day, but he begets himself. It means, he is renewed, he is not a paralytic old man, etc. He has an eternity. Millions of years are very small for HIM, HE constantly regenerates, is renewed.

"You, Sublime Architect"... In Masonry we say, "the Great Architect of the Universe", because everything is designed with mathematics, with geometry, with a ruler, not in a crazy way. "You, Sublime Architect, who by the effect of Your Will, takes out of nowhere the entire universe." That is an aspect of God's power like the magician who suddenly takes a rabbit out of a hat, then a ball, then... [The magician] imitates the Divine Power to do a trick, but not GOD, GOD is a real magician. Like the Magi,

more than the Magi. And HE takes out what was in nothing. Nothing is not a vacuum, that has its study.

"What were you doing son?"

"Nothing, mom!"

Nothing ... Nothing means that you are eating a candy, there is something in nothing.

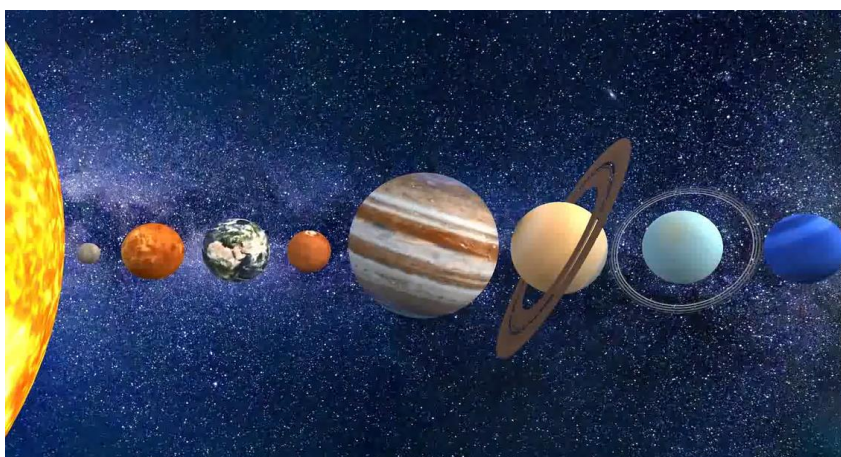

“Tú Arquitecto Sublime”, en la masonería decimos “El Gran Arquitecto del Universo”, porque todo está diseñado con matemática, con geometría, con regla; no a lo loco. “Tú Arquitecto Sublime, que por efecto de Tu

Voluntad sacas de la nada todo el Universo". Ese es un aspecto del poder de DIOS, como humano, así como el mago de repente, de la bolsa saca un conejo, luego saca una pelota, luego... Él imita [el mago] el poder divino para hacer un truco, pero DIOS no, DIOS es un mago de verdad. Como los Reyes Magos, más que los Reyes Magos. Y saca lo que estaba en la nada —la nada no es un vacío, eso tiene su estudio— “Qué estaba haciendo hijo?” “¡Nada, mamá!” Nada... Nada quiere decir que se está comiendo un caramelo a escondidas, hay algo en la nada.

You, axis and pole of the cosmos. It's like the Earth has an axis, the north pole and the south pole. He becomes the axis and pole of everything that happens. Pole because He uses the law of polarity: day-night, man and woman, big and small, hot and cold, etc. And axis because it unites the two poles; hot and cold are the same, but it has a hot state and a cold state, like water is then hot and then cold; when it is hot but is cooling down. Axis and pole of the cosmos, infinite, eternal, and uncreated. The infinite cosmos has the gift of GOD; the play has the characteristic of the actor of the play. If the poet is sad, he composes sad poetry, if he is happy, he composes [happy] poetry. If God is infinite, his work is infinite, if He is external, his work is eternal, a civilization, a planet, a solar system, a galaxy can end, but creation continues, and continues, and continues.

What they say in India, Brahma's Day and Brahma's night. Brahma's day, God's Day, where there is everything and we see with our eyes, "that is the work of God". God sees his creation through all the creatures that have eyes; He is there. The ant within the ... God is seeing with the eyes of the ant, how they make their route, and there HE is entertained. And thus, the human being, God is seeing, through our eyes.

"You, original and permanent cause of all things..." What is the cause of the tree? A seed! No, that is an intermediary, that comes from GOD. Science generally applies the how; how things work, but it doesn't explain the why. Why do the stars move? They explain the movement of the stars, but they don't know why. The stars move, why they don't fall? They are all going around and around, they get dizzy and tired, [...] why are they sustained?

"You, owner and stabilizer of the worlds ..." He maintains universal balance. "You, Master of the entities of the three worlds ..." The true Master is God, a human Master is an intermediary, because the human being commonly does not see God, he does not hear Him. So, God puts ... he delegates his mastery in a Master, that is, to a person who goes ahead of us, and opens his eyes and cleanses his path that is full of garbage, contamination.

"You, inexhaustible source of life and intelligence ..." Life never ends, there is no death. No religion says that God is the author of death; they all say HE is the author of life, and life is like saying God; life is eternal. Death ... the day died, yes, but the night was born. The day turned into night. Winter is over, yes, but Spring is coming. We are starting today, the equinox, Spring.

Well, that's how it goes, we're at the middle of the Prayer. More than a prayer, it is an instruction on how God works, what he does, what ..., etc. What characteristics HE has. That Prayer, like The Our Father, which was given by Christ, is a teaching. People pray like a prayer, and not much more, but they don't know what is in The Our father; It has those studies.

Spring Equinox

Brothers and sisters, today a Ceremony is done as is done on Sundays, a Major Ceremony, is about to fall on the day of the Equinox. On March 21, generally every year, sometimes on March 20, sometimes 22. If there is a leap year, one day is added. We celebrate the passage of the Sun, having been inclined towards the south, today it is throughout the center, then it goes north, and the heat time comes. Here we do not feel the difference, but for example, in Mexico, in the US, in Europe, they have been having a winter with a lot of snow [...] Today Spring starts, and the sun comes out with more force, traveling towards the north; it reaches it in the summer

season. There in the north there is an exaggerated heat; there are people who die suffocated by the heat. In addition, we are celebrating the beginning of the year 76 of the Era of Aquarius. The Aquarius Era began in 1948; today we are taking another step.

The Aquarius Era is going to last two thousand years, just like the Pisces era, which lasted twenty centuries; it ended in 1948. That is, one more year within the Aquarius Era, one more step towards the Era. We are still with the habits of the Pisces era, Pisces still rules, but the Aquarius Era, as the Master, the Elder Brother would say, is starting to crawl. When it starts to get up and not crawl, then comes the "brouhaha", as they say. Because we are still in the era of Pisces, one goes out and [encounters] pollution, noise, sick people, hospitals, pharmacies, asylums, prisons, barracks, the inheritance of the past. But, in the Aquarius Era, in the customs of the era, contraband will not pass, so that the Aquarius Era can be really implemented. Nothing of arms factories and the weapons that armies have, they will turn them into raw material for something else, etc.

But right now, we are in ... the border between Venezuela and Colombia; in the border, there is an area that is neither Venezuela nor Colombia, both are mixed. Thus, between the US and Mexico, the same. We are in the intermediate zone, the area of the Pisces era is larger and in the Aquarius era, it's starting through the little ones that make a home, the apostles of the era. They become vegetarians, stop drinking liquor, for their own good and for the good of society. Thus, a correct vocabulary, which does not offend, respectful. A love that grows, grows, not ends, and ends ... And so, the qualities of the human spirit, the healthy body is not enough. The ancient Greeks said: "Healthy mind in healthy body" ... "healthy body in healthy mind." Still in the mind there is a lot of garbage, a lot of contamination, they do not have a clear idea of life, they are confused because, "I don't know what's happening."

And then they write complaining, "Master, the Era of Aquarius is an era of peace, and why do wars follow then, where is the era of peace?" It is not yet implanted, the Aquarius era does not govern, the past era still commands. That war that is happening now, is the last tumor of hate that humanity had accumulated, saved, pretending that they seek peace. The tumor has burst! The doctor would say, "How good, pollution, garbage, pus is now coming out!" What will come from this war? A regulation for international peace, so as not to fall into that again. And thus, with all the failures that humanity has that are coming out, which were previously hidden.

"No Master, I am a Getuls, I behave... I am a [...]

Yes, but, in your eyes, I can see what you have inside. The one that has this grade is because he has many defects, that's what the grade has. It's like in the university, "I already studied the first year of medicine", it is because you still have a long way to go. You don't know what medicine is. "I'm already in the second grade of medicine, second year." You still have a long way... And, in the last year of Medicine you can fail, you have to repeat again.

Well then, that's what happens, people ... This year one more step, we are exaggerating, "It's just that I bring" ... take another step to implement the era of peace, the era of wisdom. Wisdom in living, not in memory, not in speaking, having titles. Wisdom in eating, in sleeping, working, in relating to others, wisdom in behavior, in the way of seeing life. People get entangled and distressed when they see things. They have no wisdom; they don't understand why things happen.

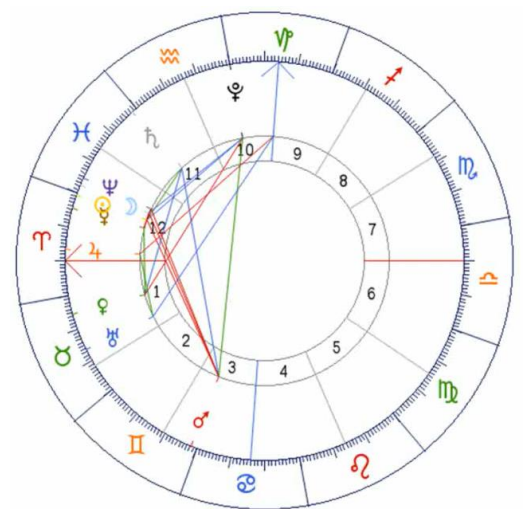

This year, what I consider important, is Pluto's entry into the sign of Aquarius; it is right at the edge, at the end of Capricorn. It is as if on the international bridge, about to go into Colombia, there is Pluto, about to enter Aquarius. That brings the Initiatic Ethics. That is what I am going to implement, strict Initiatic Ethics, not letting things pass. For that [...] the chapter from the teaching of the Messenger of the Era, the Doctor de la Ferrière, on responsibility. So, we will insist on each disciple, not the disciple demanding from the Master, no, the Master is the one who demands from the

disciple.

Then, we have the Sun entering the sign of Aries; happy birthday to all those born in Aries. And there is Jupiter, in Aries, the regent of Pisces era, now co-ruler, is there is an Aries, in fire. The last garbage is burning lodged [...] pretending, "It was not me", "I am good", but inside there is a lot of garbage. This passage from the Sun into Aries on the occasion of the equinox, with the power of Jupiter. Jupiter is the political, economic, and religious power. All that will be purified. In Pisces we have Neptune, the current regent of Pisces, and yes the sign of the past era, a sign of religion, of religious power, political power. But Neptune brings "spiritualization", to spiritualize the religious, political, economic, social power etc. And in Pisces, Saturn is there, the planet of karma, involved in the sign of the Pisces era, involved in today's world; the Lord of Karma, with the sickle, cutting all the weeds [...]

And there is Mercury, I don't know if Mercury has entered Aries, but it was in Pisces, too. Mercury is the planet of the mind, the messenger of the gods, said the ancients. It is closer to the Sun, illuminating all that darkness that there has been in the current Era of Pisces. Socially we are still in the Era of Pisces, the Era of Aquarius is in a corner, a vegetarian restaurant here, a Yoga Institute, but 99 %... is Pisces.

We have Uranus, the one that governs the Aquarian Era, which governs Aquarius, is ... In what sign is ... Uranus? An Initiation disciple has to know. Where is it? Taurus. Uranus, the regent of the era. And it brings the power to transform. Uranium, the metal of the atomic bomb, is a radioactive mineral. Uranus is a [...] and transform. And Pluto, who is entering Aquarius, works underground, below. That is why Pluto governs the volcano, the fire of the Earth that is hidden, the oil is governed by Pluto [...] Pluto enters Aquarius and by [...] is conspiring, to knock down all that is old, all the errors, vices, anguish, hatred, etc. And, Uranus is in Taurus, in an earth sign, a fixed sign. Uranus is not fixed, Uranus has been arousing, and enters the sign of Taurus, which is a fixed sign; it is like a contradiction, isn't it? A revolutionary passing in front of the barracks, he can be discovered, a conspirator.

So, there is an interesting movement, the passage of Uranus in Taurus. The other planet... We already saw the other planets that are slow, which are the strongest: Jupiter, Saturn, Uranus, Neptune, and Pluto. We talked about Mercury that is in Pisces, Mars that is in Gemini and Venus is in Taurus, in its sign. Many passions can be awakened. Taurus is possessive, it is earth, "You are my husband and here you have to do as I say, If not, you know, the police, you are my husband." That is taurus, possessive, an enslaving love. "Don't turn, who are you looking at?" That is not love, it is an attachment that will damage love. But well, as Uranus is also there, together with Venus in Taurus, Uranus is taking that away, "Stop that, you are the goddess Venus, remember that, inspire love in other ways."

There are revolutionary's winds, but it is another step, and due to that position of the major planets that govern our society, we will put Ethics ahead. People start burning karma, paying debts, not justifying the debts, that does not work. Get out of everything that is pending for a true initiation, a spiritual elevation.

Well, that's what I want to tell you, happy 76th year. Here is the true beginning of the year. On January 1. nothing happens in nature; it is not a scientific beginning. On the other hand, the winter season is over on March 21, the long nights, and short days, etc., and the Sun begins to be hot. So, the scientific beginning of the year is March 21., everything is alive. Last year there were four retrogrades, apparently going backwards, but that created suspense in many things. And this is the year of the outcomes, in personal life, in society, in the country, international relations, etc.

Technology.

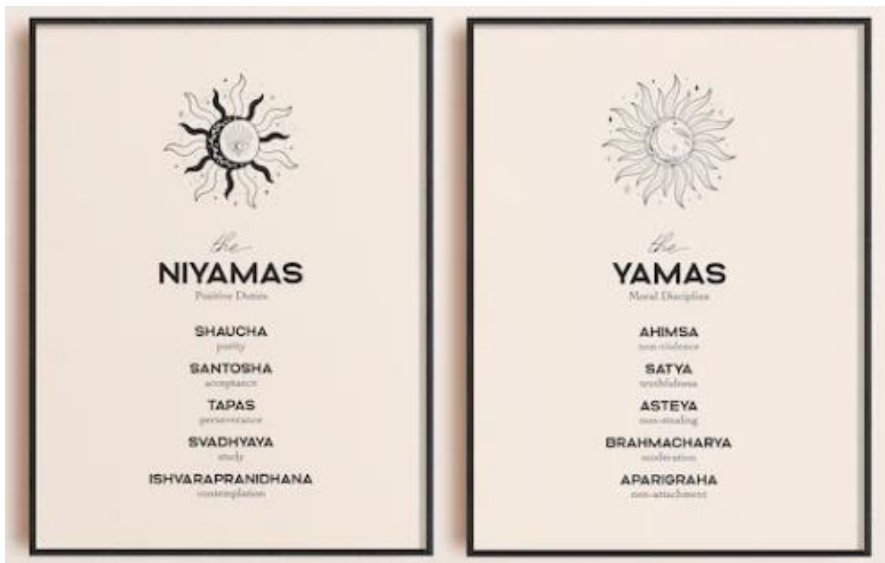

It will be faster for those who live in the cities, the hurried people who walk with the story that they have no time. Go to a village on the mountain and see how the day lasts forty -eight hours! There they have plenty of time. They don't waste time in traffic, they do not have to go to the bank, they do not have ... it is a psychological issue. Since we are in the Aquarius era, it is the speed era. Uranus brings that, a fast flight! You no longer need to go to the post office to mail a letter, in an instant, you already sent an email, a WhatsApp. And that has come like that now, but altered, because they are materialistic cities. That speed rushes the car, hurries you while standing in line, this, that ... Which are still cities of the Pisces Era, but with things of the Aquarius Era, an Aquarius Era technology, but with the way of life, from Pisces. It seems that the day lasts less, the month lasts less, because of that disorder.

Ethics.

The book is a tool, it is not a passive thing, there are books like a saw. A library of saws: free, small, beautiful, ugly; in there it does nothing. The book is a tool, one has to teach the children how the book is handled, not read it because they become scholarly, they speak very well but do not live what they learned. That is something else, the reeducation of humanity, starting with ... What does the Maestre say to re -educate humanity? Through the family cell. Where there are children, where there are no children, then, the pair of grandparents gather the children from the neighborhood. They tell stories, games ... But there is guidance, ethics: "Never make fun of another child", this that.

Today there are even ministers, and colonels, etc., going to jail. A country of corruption. A ship without a rudder, where will that go? Many people thought they were angels. "Oh! They behaved very well, there is no corruption." No, underneath the surface, what they are doing in the Amazon, there they are ending it, in search of gold, the big business.

Religion misunderstood, creates division. Religion is to unite. Re-li- gare [from Latin] re-li-gion: to unite again. But in the hands of corrupt people, religion damages, politics damages, the government damages. They claim and claim asking a thousand pesos, "no, there is no money", but for the corrupt there were a million. And a lawsuit between two government groups is created. A group won, "Well, you are talking. To the house!" But it seems that they were the angels [...] Anyone ... It is not a matter of parties, ideologies, it is the lack of ethics, of the true morality of an Initiate. We see that in the Yoga Institutes, where they give a yoga course, to prepare people, but if Yoga teachers do not teach that, but only poses of the body, they are not teaching the Yama and Niyama, ethics that the Era brings.

The first thing in a Yoga Institute, ethics: Yama and Niyama. "No, for the body attracts more and people pay well" But it is not about the money; the yoga teacher becomes corrupt when he wants to live from yoga. That's why he changes things, because it doesn't suit him, because people are not interested in it. The yoga class is then turned into another corruption, for convenience. It is not money, the money doesn't matter, the disciple has to forget ... Everything comes if you behave correctly; the bread will come, what you need, not that eagerness. I have no salary, since I

received the degree of Guru in 1971, I have no salary only donations that they give me. So, I go to a country to visit our group there, they organize a vegetarian dinner, there they charge well, charge and give me a percentage, and also from the sale of books. I have never had deficiencies, and thus I have raised my children, committed in body and soul since 1971.

When I left Mérida, I was a professor at the University, and the Elder Brother called me to Mexico, and I resigned. My colleagues said, "Wait three years to retire and have your pension."

"No, my Master is calling me, I can't." The disciples who do not have that faith, just in case, have their "savings." If faith does not work, then how will they advance on the Path? They are attached to matter. Therefore, each degree of initiation exposes the failures of the disciple. First grade, first chakra, there begins [...]. The Master's function is to pull his ears.

"Master, I already gave a talk."

"A single talk! You must give talks at least once a week, fifty -two talks a year."

"Master, I already have a little store of [...]"

"A little store? No, I want a supermarket."

That is how one stings the disciple. He hopes to receive applause from the Master, to give him an award, and the Master feels dissatisfied. The disciple will feel obligate to give another step ..., and another step. It's like the muleteer [...] a stubborn donkey must be pushed.

When a disciple from the beginning is committed with complete faith, in three years, he reaches the light. When they put 'what ifs', who knows, he'll be there as an old man and who knows. Why? Why do they want to go slowly? Initiation comes not to waste time, to accelerate. But each disciple has his 'what ifs', his apologies, his justifications, and sometimes what he does is criticize the Master, to justify his defects, his vices, by criticizing him. What does he win with that?

Well, and so.
